## Door Furniture

# Satin Anodised Aluminium

This symbol denotes a product that has been successfully tested to EN1634-1:2008 for use on 30 minute fire and smoke doors.

Please be aware that certain products will require the use of an additional intumescent product if fitted to a 30 minute fire door. Please request this information as necessary.

This symbol denotes a product that has been successfully tested to EN1634-1:2008 for use on 60 minute fire and smoke doors. It is **not** implicit that a 60 minute rated product has been tested as suitable for use on a 30 minute fire door, the 30 and 60 minute tests are carried out independently of one another.

Please be aware that certain products will require the use of an additional intumescent product if fitted to a 60 minute fire door. Please request this information as necessary.

**Approved Document M** makes specific requirements for the dimensions and format of certain products used on doors. This symbol denotes a product that meets the dimensional and format requirements of Approved Document M, BS8300 and The Equality Act 2010.

This symbol indicates the length of time (in years) that the product is guaranteed for as standard.

Guarantees are manufacturer's.

## Finishes

**All The products in this chapter are in satin anodised aluminium (SAA) finish.**
